| • CSS | • Expressjs | • VsCode | • Node |
| • HTML | • Tailwind | • MongoDB | |

EXPERIENCE

CoreExtreme Technologies

Yaoundé, Cameroon

Junior Backend Engineer - Internship

April 2024 - May 2024

- Implemented Firebase Authentication for user login and sign-up, supporting email/password and Google authentication methods, reducing login and sign-up time by 40%.
- Set up Firebase Storage for file management and integrated it with the frontend UI provided by the development team.
- Developed and optimized CRUD operations to ensure data consistency across platforms, achieving a 10% reduction in read operations and ensuring data integrity.
- Led the team, ensuring effective collaboration and troubleshooting by debugging code errors.

Trufi Association eV

Hamburg, Germany

Volunteer and Admin Coordinator

June 2022 - Present

- Developed 50 hours of public transport mapping tutorials for the Global South using QGIS, JOSM, and Remote Sensing technologies.
- Coordinated with three open-source organizations to integrate public transport mapping into their software, increasing partner collaboration by 8%.
- Utilized JOSM and remote sensing to correct 106 public transport routes in Accra, resulting in a 34% increase in app users.

EDUCATION

GROW Web Development

Accra, Ghana

Web Development

Feb 2024-April 2024

University of Energy and Natural Resources

Sunyani, Ghana

Bachelor of Science in Environmental Engineering (Graduated)

Sep 2014 -Aug 2018
